REMARKS

RETURN TO CIA LIBRARY

25X1X

18 to 22 October 1949

1. An MVD unit and an air force technical unit were observed to be stationed in the barracks of the DRESDEN-KLOTZSCHE (N 52/F 29) airfield. Some of the 150 air force soldiers wore the aviation badge and war decorations. Six U-2s were observed at the field (see Annex). Practice flights were conducted over the field. A biplane took off every day about noon heading southeast. Motor vehicles observed near the barracks

truck.

19 to 21 October 1949

2. Wings, fuselages and aircraft engines were unloaded from three freight cars parked on the airfield spur track in front of the storage building. These aircraft parts were packed in straw. The hangars were closed. It was assumed that the parts were to be stored or assembled in the hangars.
3. The installations of the field were neglected. The boundary lights, the DF station and a signal communication bunker were destroyed. The sandy landing field had a neglected grass cover. The two taxiways were in a poor condition.

25X1X

20 October 1949

4. An MVD unit and an air force unit were stationed at the DRESDEN-KLOTZSCHE airfield. About 15 U-2 trainers were parked in a hangar. The landing field had recently been reconditioned.

~~CONFIDENTIAL~~CLASSIFICATION ~~SECRET-CONTROL/US OFFICIALS ONLY~~

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.

Comment:

a. The report confirms that the ground attack unit previously stationed at the field has left ~~WLOTSCHE~~. The MVD unit is probably the same as the army unit continually observed in the barracks. Very probably a ground unit of the Soviet Air Force is also stationed there. Its numerical designation is unknown.

b. The arrival of aircraft parts was reported for the first time. It remains to be seen whether they are destined for a new air unit due to arrive in ~~WLOTSCHE~~ or whether they represent spare parts to be stored.
